

# INDUSTRIAL HEMP

For growers looking at cropping options Macquarie 2100 is staging an information seminar featuring two speakers who've been involved in the industrial hemp industry for more than 20 years.

## Advantages include:

- \*Requires less water than many crops, great in years of low allocations;
- \*No Chemical Inputs – Saves money and improves soil health
- \*1 acre grown in 100 day season produces equivalent paper product as four acres of trees;
- \*It's been claimed there are more than 25,000 uses for industrial hemp produces;
- \*The crop creates enormous root mass and aerates the soil, negating deep ripping for following crops.

**TRANGIE  
BOWLING  
CLUB  
THURSDAY  
19<sup>th</sup> JUNE  
@ 6.30 pm**
